

UNIVERSITY
OF WARSAW

Study Guide 2018/2019

Study Guide
2018/2019

UNIVERSITY OF WARSAW

two centuries of tradition
– in 2016 the University of
Warsaw has celebrated its 200th
anniversary.

the best higher education
institution in the country
(in international rankings: Times Higher
Education World University Rankings,
QS World University Rankings, and
Academic Ranking of World Universities)

the biggest Polish higher
education institution – the
University community comprises
approximately 58 thousand people!

- 44400 BA and MA students (among
them ca. 4400 foreigners)
- 3200 doctoral students
- 3000 postgraduate students
- 7200 employees (among them 3700
academic teachers)

the most active Polish university in
mobility programmes
(over 1800 international students on
short-term studies each year)

the most popular Polish university
among foreign students

the biggest research budget among
all Polish universities
(nearly 106 million euro in 2016)

the highest number of awarded
grants in Poland
(the University is the leader among
all Polish institutions which won the
Horizon 2020 and 7th Framework
Programme grants).

The UW cooperates with over 800
foreign entities. It is a member of
approximately 100 international
associations and networks.

WHERE ARE WE?

Europe → Poland → Warsaw

Poland

location: Central Europe

area – 312,679 km², 9th largest country in Europe

population: ca. 38.5 million people

membership: European Union, NATO, United Nations, World Trade Organization, Organization for Economic Co-operation and Development (OECD), Council of Europe, Organization for Security and Co-operation in Europe (OSCE), Visegrád Group, Weimar Triangle, Schengen Agreement and others.

Poland is a country with a fascinating history, spanning more than one thousand years: from being a European power to struggling for independence to standing out as a state noted for its dynamism. Several hundred years of Polish academic traditions reach back to the fourteenth century. Achievements of many outstanding Poles are the best testimony of our rich culture and legacy.

Poland was the birthplace and home to scientists and authors of breakthrough discoveries, such as the astronomer Nicolaus Copernicus, who created the heliocentric model of the universe, or Maria Skłodowska-Curie, laureate of two Nobel prizes (in physics and chemistry). Fryderyk Chopin and other renowned contemporary composers, such as Jan A.P. Kaczmarek or Wojciech Kilar, were also born in Poland. Poems by Wisława Szymborska and Czesław Miłosz and prose by Stanisław Lem have been translated into dozens of languages of the world. Films by Andrzej Wajda, Agnieszka Holland, and Krzysztof Kieślowski are watched and admired all over the globe.

Warsaw

the capital of Poland

population: 1.7 million inhabitants

area: 517 km²

the largest city in Poland

location: Central Poland

Warsaw – symbolic capital of the Polish success in many dimensions, a metropolis whose dynamism is second to no other leading European capital. Intellectual and creative heart of Poland: it is here that the best ideas and concepts come to life. A city where history has taken its toll, a city that continuously learns and is open to change. A creative, courageous and open city.

These words describe also the University of Warsaw. Two centuries old (est. in 1816), the university, in line with its jubilee motto “Two centuries. Good beginning,” respects its legacy and at the same time remains open towards what is new and bravely reaches for innovative solutions in teaching, research, and even in architecture.

Warsaw is one of the largest academic centres in this part of Europe. 250,000 people attend Warsaw higher education institutions – the capital of Poland has thus more students than Berlin or Prague.

**WELCOME
POINT**

The Welcome Point is the central information service point for international students – both those who come to the UW for one semester exchange and to pursue the whole cycle of their studies. We cooperate closely with the Admissions Office, the International Relations Office, the Office for Student Affairs and other University units to provide you with relevant and up-to-date information in matters related to the University, student activities, and everyday life.

Our team is here to welcome and assist you at the beginning as well as during your stay in Warsaw. We hope to make your transition to UW and life in Warsaw as smooth as possible! Feel free to visit us at our office.

We will be glad to answer your questions concerning studies at UW and life in Poland as well as to help you find the way to other University offices.

Welcome Point

welcome.uw.edu.pl

phone: (+48) 22 55 24 080; 24 103

e-mail: welcome@uw.edu.pl

**Office hours:
Monday – Friday
9.00 – 16.30**

ACADEMIC SYSTEM

Faculties, research & teaching units

There are 21 faculties and 30 other academic units at the University of Warsaw. They offer undergraduate, graduate, doctoral and post-diploma studies, organise summer schools and vocational courses, initiate interdisciplinary programmes and introduce new teaching techniques. The University's degree programme honours several levels of achievement. The range of degrees offered by the University includes the 'licencjat', comparable to the degrees of Bachelor of Arts or Bachelor of Science granted after 3-year 1st cycle (undergraduate) studies; the 'magister', comparable to the degrees of Master of Arts, Master of Science, Master of Business Administration granted after 5-year long cycle or 2-year 2nd cycle (graduate) studies; 'doktor' (Doctor's degree, PhD, L.L.D.), as well as the post-doctoral degree – 'doktor habilitowany' (Reader's or Assistant Professor's degree) and 'profesor' (Professor).

Programmes of study

System of studies at the University of Warsaw offers courses in hundreds of programmes in the arts and science. There are several opportunities for international students to study at the University of Warsaw: full- and part-time degree studies, short-term studies, foundation year, Polish and English courses, summer schools and many more.

See a full list of 1st cycle (undergraduate), long cycle and 2nd cycle (graduate) programmes at the University of Warsaw, conducted in Polish and English language. (page 21)

Courses

Polish is the language of instruction at the University of Warsaw but there are 25 degree programmes offered in English and over 1,300 foreign-language single courses (mostly in English). A list of all courses is available at the website: usosweb.uw.edu.pl

COURSE REGISTRATION

Every incoming and local student has to be registered for all his/her courses in the UW study support system, called USOSWEB. In order to register for any course the student needs to have an account in the USOSWEB. Registration for courses at the faculties, sports, foreign or Polish language courses is done on-line through: www.rejestracja.usos.uw.edu.pl

EUROPEAN CREDIT TRANSFER SYSTEM

(ECTS)

ECTS is a student-centred system based on the student workload required to achieve the intended learning outcomes of a study programme. It was introduced in 1998 as a credit transfer system within the Erasmus programme and within years it has developed into an accumulation system that is widely used across Europe. Introduction of ECTS allowed to compare study programmes offered by different universities.

Students can more easily move from one university or country to another and continue their education on another level.

ECTS has become mandatory in Polish HEIs since 2007 and is used in all study areas for both incoming and local students. Each student is obliged to get 30 ECTS per semester (60 ECTS per year). It means that a student's average workload necessary to complete one year of his/her studies amounts in most cases to ca. 1,500-1,800 hours. It consists of time essential to complete all learning activities required by the programme such as participation in classes, lectures, seminars, placement and preparation for exams, presentations etc.

Tuition fees

International students studying in Poland on the same conditions as Polish citizens have the right to free of charge studies (only full-time studies) or pay tuition fees applicable to Polish students, depending on the study programme (part-time studies, studies in foreign languages).

International students admitted at the University of Warsaw on fee-paying basis must pay tuition fees, not lower than the equivalent of: 2,000 EUR per year – for 1st cycle studies (Bachelor level), long cycle and 2nd cycle (Master level) studies.

Scholarships

POLISH GOVERNMENT SCHOLARSHIP

is awarded to international candidates on the basis of bilateral agreements. Monthly scholarship amounts to 900 PLN and it is supposed to cover the accommodation (dormitory) and living costs. Studies for scholarship holders are free of charge. Scholarships are funded by the Ministry of Science and Higher Education and administered by the Polish National Agency for Academic Exchange. To apply for scholarship foreigners should submit suitable documents to the Polish Embassies and Consulates in their countries of residence.

BANACH SCHOLARSHIP PROGRAMME

for master degree studies is addressed to graduates and last year students of Bachelor studies in the fields of science, natural sciences, technical studies, economics, European studies/European law. Eligible to apply are students from six Eastern Partnership countries: Armenia, Azerbaijan, Belarus, Georgia, Moldova and Ukraine. Monthly scholarship amounts to 1350 PLN. Command of Polish language is necessary.

KONSTANTY KALINOWSKI SCHOLARSHIP PROGRAMME

is the largest programme in Europe for young Belarusians who have not been able to study in their country because of their political views. It helps Belarusian students to get access to the best Polish universities and promotes European values. The programme offers scholarships for bachelor, master and doctoral studies as well as research internships and postgraduate studies in all fields of studies. The Konstanty Kalinowski Scholarship Programme is coordinated by the Programme Bureau at the Centre for East European Studies at University of Warsaw.

See: www.studium.uw.edu.pl

IGNACY ŁUKASIEWICZ SCHOLARSHIP PROGRAMME

is offered for the master degree studies (preceded by annual preparatory course to undertake studies in Poland) and for doctoral studies. Monthly scholarship amounts to 1350 PLN and it is supposed to cover the accommodation (dormitory) and living costs. Studies for scholarship holders are free of charge. The Programme is addressed to citizens of the developing countries, in the first place from the following countries: Angola, Ethiopia, Indonesia, Kenya, Colombia, Mexico, Myanmar, Mongolia, Mozambique, Nigeria, Republic of South Africa, Senegal, Tanzania, Vietnam.

VISEGRAD SCHOLARSHIP PROGRAM

is offered for nationals of the V4 countries (the Czech Republic, Hungary, Poland and Slovakia), as well as nationals of the V4 neighboring countries. Visegrad scholarships are awarded for 5 months (1 semester) or 10 months (2 semesters) for master, doctoral and postgraduate studies as well as scientific research. It is possible to prolong the stay.

See: www.visegradfund.org

RECTOR'S SCHOLARSHIP

could be given to a student who obtained high GPA in the preceding year, has significant scientific achievements, artistic achievements or has achievements in sport on the national and/or international level. It could be granted to foreign students studying in Poland on the same conditions as Polish citizens (EU/EFTA nationals, holders of permanent residence permit, long-term EU-resident permit, Card of the Pole or refugee status).

See: www.oks.uw.edu.pl

Learning Foreign Languages

Language courses are organised by the UW Centre for Foreign Language Teaching (CFLT), Faculty of Modern Languages, Faculty of Oriental Studies, and University Centre of Foreign Language Teacher Training and European Education within the University System of Language Provision (USLP). The courses are available to all the students of the 1st cycle and long cycle (5-year) studies at the University of Warsaw and each student has the right to choose the language course s/he wants to take. Students are eligible for no more than 240 teaching hours (free or as part of their fee).

Students of the University of Warsaw and prospective participants from outside the UW can also take part in any number of fee-paying language courses offered within the USLP and other forms of language education, also intensive foreign language courses during the winter and summer breaks.

The UW educational offer includes courses in over 40 foreign languages. The most popular among students are English, German, Russian, French, Spanish and Italian. The USLP offers various types of courses: face-to-face courses, blended courses, e-courses, on-line courses.

In 2006 the University System of Language Provision was awarded the European Language Label, and in 2012, the European Commission distinguished the UW in the 'European Language Label of the Labels' competition.

See: szjo.uw.edu.pl

Learning Polish Language

The Centre of Polish Language and Culture for Foreigners 'Polonicum' offers a wide selection of Polish language courses at the elementary, intermediate and advanced levels throughout the academic year, as well as several courses on Polish culture, history and traditions. The 'Polonicum' organises one-year Preparatory Course of Polish Language for Foreigners, open courses with three-month terms and intensive summer language courses that feature elements of Polish culture and history.

Polonicum holds regular classes for international students at the UW or other academic institutions located in the capital as a supplement to their study or research (it is merely a language skills programme, not a regular academic faculty). They can also attend lectures on Polish literature, history and culture, films, audio-visual programmes, lessons in museums, etc.

See: www.polonicum.uw.edu.pl/en

FOUNDATION YEAR AT THE UNIVERSITY OF WARSAW

For social studies, humanities or science

The aim of the programme: improvement of language, as well as preparation for studies in English in a field of Social Studies, Humanities or Science at the University of Warsaw or other Polish universities.

ENTRY REQUIREMENTS:

- English language skills equivalent to at least B1 level, according to the Common European Framework of Reference for Languages, assessed on the basis of the UW placement test
 - Secondary school diploma/maturity certificate
- The list of required documents available at:
<http://enbss.uw.edu.pl/foundation-year-documents/>

DURATION: 9 MONTHS

(TWO SEMESTERS)

- first semester: focus on English for academic and specific purposes
- second semester: specific degree courses run by field specialists
- an intensive programme: 600 learning hours, 4 contact hours per day, 5 days a week

BENEFITS OF THE PROGRAMME:

- Learning English towards B2 at the best University in Poland
- Admission to first year of study at UW after completing the Foundation Year Programme
- Seminars with field specialists
- All four language skills practised
- Face-to-face instruction with online support
- One-to-one tuition available
- Possibility to learn Polish
- State-of-the-art facilities with top class equipment
- Learning materials included
- Variety of social activities

COURSE DATES: October – June

FEE: 3100 EUR

APPLICATION AND ADMISSION TO DEGREE (BACHELOR AND MASTER LEVEL) STUDIES

Terms of studying in Poland

International students can be admitted for studies on equal terms with Polish citizens or on other rules, not applicable to Polish citizens.

ADMISSION ON EQUAL TERMS WITH POLISH CITIZENS

The right to apply for admission and study or participate in academic research and courses on equal terms with Polish nationals has been granted to:

- Polish nationals
- Polish nationals who also hold a citizenship of another country (under the Polish law, they are not foreigners and are required to take part in the admission

process on the rules for Polish nationals)

- non-Polish nationals (foreigners) who have been granted a residence permit to settle
- non-Polish nationals (foreigners) who hold refugee status granted by the Republic of Poland
- non-Polish nationals (foreigners) who have been granted temporary protection in the territory of Poland
- migrant workers who are citizens of the European Union (EU) or European Free Trade Association (EFTA) countries and the members of their families if residing in the territory of Poland
- non-Polish nationals (foreigners) who in the territory of Poland have been granted a long-term residence permit of the EU
- non-Polish nationals (foreigners) who in

the territory of Poland have been granted a fixed-term residence permit pursuant to some special circumstances

- non-Polish nationals (foreigners) who have been granted subsidiary protection in the territory of Poland
- citizens of EU or EFTA countries and members of their families, having the right of permanent residence
- citizens of EU or EFTA countries and members of their families, provided that they have financial resources necessary to cover cost of studying; such students are entitled to receive only scholarships for outstanding learning achievements / sporting achievements
- holders of the valid Card of the Pole

Admission procedure includes:

1st cycle (Bachelor) and long cycle (Master level) studies:

- calculating the results obtained on a high school diploma (subjects required for a particular field of study),
- in some cases the procedure may also include additional entrance exam (written or oral), checking e.g. the language skills and knowledge related to the future studies.

2nd cycle (Master degree) studies:

- calculating the results obtained on a higher education diploma,
- or/and additional entrance exam (written or oral), checking e.g. the language skills

- and knowledge related to the future studies,
- or/and other criteria.

ADMISSION ON OTHER TERMS THAN POLISH CITIZENS

Following candidates may undertake studies on different terms than applicable to Polish nationals:

- candidates from non-EU/EFTA member countries, who do not meet the requirements to undertake and pursue studies on the terms applicable to Polish citizens
- citizens of EU or EFTA countries and members of their families, who decided to undertake studies in Poland on other terms than applicable to Polish citizens (e.g. as Polish scholarship holders)

- holders of the valid Card of the Pole (pol. Karta Polaka), who resigned from study on the terms applicable to Polish citizens (e.g. they will study as Polish scholarship holders)

The candidates may study:

- on a tuition fee-paying basis (fees in EUR)
- as Polish scholarship holders
- free of tuition fees and with no scholarship entitlement
- as holders of scholarships awarded by the sending partner, and free of tuition fees
- as holders of scholarships awarded by higher education institutions

on the basis of:

- decisions of the rector of a higher education institution
- international agreements

- agreements concluded between higher education institutions and foreign entities
- decisions of the minister competent for higher education or other competent minister

Polish and foreign scholarship holders are admitted according to the rules stated in appropriate Polish/international agreements. For other candidates, admission procedure includes entrance exam (written or oral) and/or calculating the results obtained on certificate/higher education diploma. In case of any doubt, candidates are advised to contact the UW Admissions Office.

LANGUAGE COMPETENCE

STUDIES IN ENGLISH LANGUAGE

Candidates who apply for studies in English are obliged to prove their knowledge of English language at least at B2 level.

Following documents confirm the knowledge of English Language:

- International Baccalaureate Diploma (IB),
- European Baccalaureate Diploma (EB),
- diploma of graduation from high school/ studies conducted in English,
- diploma of graduation in English Philology, Applied Linguistics,
- international language certificate (e.g. Cambridge Certificates, IELTS, TOEFL, CELS) at the level equivalent to B2.

List of accepted documents:

<http://www.rekrutacja.uw.edu.pl/files/pdf/>

[Documents-knowledge_of_English_EN.pdf](http://www.rekrutacja.uw.edu.pl/files/pdf/Documents-knowledge_of_English_EN.pdf)

STUDIES IN POLISH LANGUAGE

Candidates who apply for studies conducted in Polish language are required to possess full command of Polish language.

To present it, they may:

- complete a preparatory Polish language course held by the institution appointed by the minister of higher education (e.g. UW POLONICUM),
- obtain the Polish Language Certificate, issued by the State Commission for Certification of Command of Polish as a Foreign Language,
- receive confirmation from the UW unit that their command of Polish allows them to undertake the studies.

REQUIRED DOCUMENTS

Candidates accepted to study at the University of Warsaw are obliged to submit required documents directly to the appropriate faculty/institute.

NOTE: Non-submission of required documents by specified deadline is equal with resignation from undertaking studies. In justified cases the faculty/institute may extend the deadline for submitting documents.

The required documents are as follows:

- in case of application to first-cycle (BA) or long cycle (5-year, MA) studies - the original of secondary school (maturity) certificate or another document (with a full list of final grades), entitling to undertake university-level study in country in which the certificate/document was issued,

- in case of application to second-cycle (MA) studies - original of higher education diploma (MA, BA, engineer diploma or equivalent) with a full list of grades obtained during the course of study, entitling to continue university-level study in country in which the diploma was issued,
- a legalisation (or apostille) of above mentioned documents,
- a document stating that the certificate/ diploma entitles to undertake or continue university-level study in country in which the certificate/diploma was issued (such proof should be issued or certified by the school or educational institution which issued the certificate/diploma or by educational authorities of the country which issued the certificate/diploma or in which system of education the school operates),
- original sworn translations into Polish language (or English language if a candidate undertakes studies provided in English) of all the documents listed above,
- a certificate of recognition (nostrification) of secondary school (maturity) certificate/ diploma, if applicable,
- an application for admission printed out from candidate's individual registration account in the Candidate's Registration System,
- a photocopy of an ID (passport's personal data page and page with visa). A copy must be certified by the UW upon your arrival to Poland,
- a residence permit in the territory of Poland, if applicable (in case of a fixed-term residence permit, a final decision on granting the residence permit should be also attached),
- one colour photograph,
- an application for issuing student's id printed out from candidate's individual registration account in the Candidate's Registration System (it is necessary to attach a digital photo first),
- a proof of student's id payment,
- a health certificate stating that there are no objections to undertake studies on the chosen field of study by a candidate (if the health certificate was issued in a foreign language, a sworn translation into Polish language is required),
- a certificate of proficiency in English (for studies conducted in English) or in Polish language (for studies conducted in Polish) - at B2 level,
- additional documents, depending on the chosen field of study.

For more information see:
www.rekrutacja.uw.edu.pl/en

RECOGNITION OF EDUCATION

RECOGNITION OF A FOREIGN SECONDARY SCHOOL (MATURITY) CERTIFICATE

1. Recognition of a certificate or a level of education or the right to continue education **is not necessary** in case of:

- certificates or other documents issued by schools operating in educational systems of EU, OECD or EFTA members, which allow access to higher education institutions in those countries,
- IB diplomas (International Baccalaureate) issued by International Baccalaureate Organization in Geneva,
- EB diplomas (European Baccalaureate) issued by European Schools in accordance with the Convention drawn up in Luxembourg on 21 June 1994.
- certificates issued in countries with which Poland has signed bilateral agreements concerning the recognition of education (certificates issued under the agreements which expired will still be recognized on the basis of those agreements). The list of bilateral agreements can be found at:

<http://www.nauka.gov.pl/en/recognition-of-academic-qualifications/legal-acts.html>

2. If your certificate do not meet above requirements, it may be recognised in the process of recognition in the Education Office.

See: www.kuratorium.waw.pl/en

RECOGNITION OF FOREIGN HIGHER EDUCATION DEGREES IN POLAND

1. A foreign degree giving access to further studies or the right to start doctoral proceedings in the country where it was awarded, gives its holder access to second cycle studies, postgraduate studies, third cycle / doctoral studies or the right to start doctoral proceedings in Poland.

2. A foreign degree may also be recognised for the purpose of further education on the basis of an international agreement.

3. If your degree does not give access to further studies in a country where it was obtained, and you still wish to continue education in Poland, you have to have your degree nostrified.

Nostrification is a procedure whereby a foreign educational qualification is compared to its Polish equivalent and their equivalence determined. The competent authorities to conduct the nostrification procedure are organizational units of higher education institutions authorized to confer an academic degree of a doktor (doctor) in a given field of science or in a given field of art providing education in an area corresponding to a field of study completed abroad.

UW ADMISSION PROCEDURE STEP BY STEP

1. REGISTER ON-LINE IN THE CANDIDATES' REGISTRATION SYSTEM: WWW.IRK.UW.EDU.PL

- choose admissions path applicable to you
- complete your personal details and attach your documents
- choose field(s) of studies
- check and approve the application criteria
- pay the application fee

2. PARTICIPATE IN THE QUALIFICATION PROCEDURE

Detailed information on qualification procedure for long-term degree studies in English is available in the Candidates' Internet Registration System (<http://www.irk.uw.edu.pl>) in the catalogue of particular fields of studies.

3. CHECK QUALIFICATION RESULTS

Candidates receive the qualification results on their individual registration accounts in the Candidates' Internet Registration System (<http://www.irk.uw.edu.pl>).

4. SUBMIT REQUIRED DOCUMENTS

It is necessary to submit all the required documents directly to the appropriate faculty or institute.

5. RECEIVE A FORMAL DECISION ON ADMISSION

1st cycle (3-year Bachelor level)

AMERICAN STUDIES

specialisation: American Studies

BA level, full and part-time

The American Studies Center of University of Warsaw (ASC UW) is one of the biggest American Studies departments in Europe. The Center is a part of the Institute of the Americas and Europe (IAiE), together with the Center for Latin American Studies (CESLA) and the Center for European Regional and Local Studies (EUROREG). The ASC employs over 20 faculty from Poland and the United States and provides excellent research facilities for students, scholars and professionals interested in the field. The ASC Library is the largest American Studies library in Central Europe, containing a sizable microfiche and microfilm collection and a wide array of recent academic publications.

The ASC runs interdisciplinary B.A., M.A. and postgraduate programs. All courses are taught in English. Its faculty research and teach various aspects of the United States culture, society, literature, art, film, media, history, economy, politics, law, ideas, etc. Faculty are both Polish and international scholars; permanent faculty includes three professors from the U.S. Classes are taught by the Center's faculty and guest faculty. Graduates of the American Studies Center have specialized knowledge about American society and culture, and the relations between the U.S. and the world, including Europe. The first-cycle studies program,

running for three years (six semesters), encompasses introductory lectures to the various disciplines that make up the curriculum, and a spectrum of electives; students are encouraged to enroll in elective classes which would inform their specific research projects. The program also includes an academic writing class (English composition) and other types of classes. Graduates will have earned a licencjat degree, comparable to Bachelor of Arts degree, in cultural studies with an emphasis in American Studies. Graduates of the Center find employment in an array of professions, e.g., business, foreign trade, journalism, media, culture, education, administration, foreign service and international organization, tourism.

Admission for candidates with foreign diplomas

qualified on equal terms with Polish citizens

Calculating the results obtained on a high school diploma (maturity) or the final high school transcript in:

- Polish language or original language of the maturity exam*
- Mathematics
- English Language
- One subject chosen from the list: Philosophy, History, Geography, Art, Economics, Spanish, Portuguese

* If the candidate has passed English language as the original language of the maturity exam, s/he will have their result from English exam count in both categories.

qualified on different terms than Polish citizens

Candidates are qualified on the basis of their high school certificate (maturity) GPA. The results of maturity exams will be expressed in percentage points as a ratio of grade obtained by a candidate to the highest grade in force in the country, in which the certificate was issued.

The maximum number of points to obtain is 100.

Candidates must certify their English language proficiency at the minimum level B2 of the Common European Framework of Reference for Languages (CEFR) or equivalent.

Admission for candidates with IB diplomas

Calculating the results obtained on a high school diploma (maturity) in:

- Polish language or A1 language from the group 1*
- (if candidate has not passed Polish language),
- Mathematics,
- English language
- One subject chosen from the list: Philosophy, History, Geography, Psychology, Anthropology, Business and Management, Economics, Politics, Subject from group 6 „The Arts”

* Candidates who indicate English Language as A1 language from group 1 (IB) will have their result from English exam count in both categories.

Admission for candidates with EB diplomas

Calculating the results obtained on a high school diploma (matura) in:

- Polish language or L1 language* (if candidate has not passed Polish language),
- Mathematics,
- English language
- One subject chosen from the list: Philosophy, History, Geography, Economics, Art

* Candidates who indicate English Language as L1 language (EB) have their result from the English exam count in both categories.

ARCHAEOLOGY

BA level, full-time

The study programme is designed to give students the best training in the archaeological profession and to provide them with knowledge and skills helpful for a good start in other fields. It encompasses a wide variety of subjects, including both general arts & humanities courses as well as scientific courses, such as Non-

invasive Methods in Archaeology, Statistics or Techniques of Data Acquisition and Processing – important assets on the modern job market.

The study programme focuses on Mediterranean Archaeology (Near East, Egypt, Greece and Rome), but provides the students with background knowledge and practical skills enabling them to take part in archaeological expeditions and explorations all over the world. Fieldwork (excavations and archaeological survey) is obligatory during the course of studies and the Institute of Archaeology offers numerous sites for student's practice (e.g. Armenia, Georgia, Lebanon, Egypt, Sudan, Montenegro, Bulgaria, Italy (Sicily), Ukraine, Peru).

Admission for candidates with foreign diplomas

Calculating the results obtained on a high school diploma (maturity) or final high school transcript in:

- Polish language or original language of the maturity exam,
- Mathematics,
- English Language,
- one subject chosen from: Economics, History, Art, Music, Geography, Latin, Philosophy, Classical Greek Language.

Admission for candidates with IB diplomas

Calculating the results obtained on a high school diploma (maturity) or final high school transcript in:

- Polish language or A1 language from the group 1 *

- (if candidate has not passed Polish language),
- Mathematics,
- English language,
- one subject chosen from the list: Business and Management, Economics, Psychology, Anthropology, History, subject from Art group, Geography, Latin, Classical Greek, Philosophy, Politics.

Admission for candidates with EB diplomas

Calculating the results obtained on a high school diploma (maturity) or final high school transcript in:

- Polish language or L1 language* (if candidate has not passed Polish language),
- Mathematics,
- English language,
- one subject chosen from the list: Economics, History, Art, Music, Geography, Latin, Classical Greek, Philosophy.

BA level, full and part-time

The English Studies major is considered part of the humanities. It encompasses courses in the fields of Theoretical- and Applied Linguistics as well as those relating to the Literature and Culture of the nations of the Anglosphere, among them Great Britain, the United States, Ireland, Canada, Australia, the Republic of South Africa, and others. Emphasis is put on the practical application of the knowledge acquired.

The central theme of the programme is the customization of study. Though students are obligated to attend compulsory courses, the majority of their study experience consists of elective courses tailored to individual interests and needs. Providing students with the opportunity to influence their academic experience is what makes our Institute one of a kind.

This unique course system is made possible owing to the efforts of a dedicated staff of experts. Most members of our faculty are not only teachers, but also accomplished scientist and scholars. As much as 30% among them are distinguished professors. Our employees are renowned experts in their respective fields.

The level of study personalization offered at our Institute cannot be matched by research facilities that have not adopted a course system. All primary courses and electives associated with a student's major are taught in English. The primary goal of our study programme is the creation of a unique environment which allows students to define their interests and consolidate their skills at very early stages of their academic careers.

It is our firm belief that this promotes growth and development.

Instead of limiting our courses to specific professional training, our study programme focuses on the development of useful transferrable skills that are highly sought after by many employers, among them self-training, teamwork, decision-making, composition, or public speaking. This is one of the reasons why our students can look forward to prospective careers in various fields. Through the application of our unique teaching methods students develop critical thinking, reflection, and problem solving skills.

Graduates possess a C1 Level knowledge of English (according to the EQF) and are trained in linguistics as well as the culture, literature, art, and sociology of English-speaking countries. In addition, their knowledge of the humanities makes them well-suited for both academic and professional careers. With the completion of a teacher training course, they are qualified to teach basic English.

**Admission for candidates
with foreign diplomas**

**qualified on equal terms
with Polish citizens**

Calculating the results obtained on a high school diploma (maturity) or final high school transcript in:

- Polish language or original language of the maturity exam*,
- Mathematics,
- English language,
- Modern foreign language *

* Polish language or original language of the maturity exam and modern foreign language must differ

**qualified on different terms
than Polish citizens**

Form of oral examination: qualification interview in the English language.

Required skills and abilities:

- good communication skills;
- ability to comprehend spoken English in its various forms, to express oneself clearly and to articulate arguments;

EUROPEAN STUDIES – EUROPEAN INTEGRATION, SPECIALISATION: EUROPEAN POLITICS AND ECONOMICS

BA level, full-time

The specialization of European Politics and Economics is an innovative educational program concentrated on the EU policies and the economic dimension of the functioning of the European Union. The main focus is on the economic dimension of the European integration process, which distinguishes the specialization from other programs run by the Institute of European Studies.

The specialization prepare its graduates to conduct business on the EU market, work in lobbying and consulting companies, work in public administration at the governmental and local governmental level, perform official duties in the EU and international structures, work in non-governmental organizations.

The graduates of first-cycle studies in European studies - European integration have a basic knowledge on functioning of diverse and multifaceted areas of European policy, which enables them to understand the dynamics of political, economic, legal and social changes at the national and supranational level; to develop decision strategies; to analyze attitudes and behaviors of participants of integration processes, their mutual relations and interactions.

Additionally, the graduates of the European Politics and Economics specialisation have knowledge on the economic aspects of functioning of the European Union and the implemented EU policies. The specialization provides interdisciplinary education in the field of social science, economics and legal science in the context of European Studies.

Graduates of the European Politics and Economics specialization additionally have the necessary skills to work for the civil service at the governmental, self-governmental and supranational level, to work at non-governmental organizations, EU institutions and agencies, media, cultural institutions.

Admission for candidates with foreign diplomas

qualified on equal terms with Polish citizens

Candidates should possess documented knowledge of English at a minimum level of B2, or equivalent document confirming the knowledge of English in accordance to the Ordinance of the Minister of Science and Higher Education of 12 October 2006 on taking up and completing studies and training courses by foreigners and their participation in research and development work (Journal of Laws of 2006, No. 190, item 1406, as amended). Command of English can also be confirmed by a Baccalaureate exam (English exam at an advanced level), a language certificate, a supplement to the Bachelor's diploma. Candidates without a documented command of English at B2 level will be invited to an interview which will confirm their command of English.

Qualification is based on calculating the results obtained on a high school diploma (maturity) in:

- Polish or original language of the high school diploma (maturity) exam
- Mathematics
- Modern foreign language
- One elective subject chosen from the high school diploma (maturity) exams

Qualified on different terms than Polish citizens

Candidates should possess documented knowledge of English at a minimum level of B2, or equivalent document confirming the knowledge of English in accordance to the Ordinance of the Minister of Science

and Higher Education of 12 October 2006 on taking up and completing studies and training courses by foreigners and their participation in research and development work (Journal of Laws of 2006, No. 190, item 1406, as amended).

Qualification is based on the interview in English.

Exam issues: the conversation will concern the reasons for choosing the field of study and general knowledge about contemporary Europe and the world, the functioning of modern states with particular attention to issues related to democracy in Europe, basic values, culture and history of Europe. The exam will also assess the degree of the command of English.

UNDERGRADUATE PROGRAMME IN INTERNAL SECURITY

BA level, full-time

To improve its educational offer the Institute of Political Science decided to start a new and innovative Undergraduate Programme in Internal Security (UPIS) which is addressed to all international and Polish applicants who are interested in gaining knowledge about the security issues in the age of globalization. It is the answer to the growing demand for the theoretical knowledge and its practical use in the area of internal security and public order. UPIS covers the variety of courses which are taught in English. In order to receive a bachelor degree, the graduates will be required to write a Bachelor's thesis and pass the examination. The studies are fee-paying.

As our lectures are high qualified theoreticians and practitioners UPIS gives you an opportunity to gain knowledge on security from different perspectives. Our Programme also creates various jobs opportunities such as working in public and state institutions, law enforcement agencies,

local governments and schools of higher education.

Apart from the regular courses our students are also invited to take part in the academic life by participating in events such as: conferences, debates, lectures of guests from all over the world and numerous social events.

You can learn more about Undergraduate Programme in Internal Security (UPIS) here: <http://www.inp.uw.edu.pl/upiis/>

Application and admission procedure

Candidates are admitted on the basis of submission of required documents:

1. a secondary school (maturity) certificate or another document, entitling to undertake university-level study in country in which the certificate / document was issued (a copy of original document, certified by the University of Warsaw)
 - a legalisation / authorisation of above-mentioned documents (or apostille if the document was issued by an institution operating in the educational system in a country that was a member of the Hague Convention of 5th of October, 1961 abolishing the requirement of legalizing foreign official documents)
 - original sworn translations into Polish language (or in special cases into English) of secondary school (maturity) certificate
2. an application for admission printed out from candidate's individual registration account in the Candidate's Registration System and signed up by the candidate

3. an application for issuing student's id printed out from candidate's individual registration account in the Candidate's Registration System
4. a photocopy of an id (passport's personal data page and page with visa), on the basis of which a candidate has created his/her registration account in the Candidate's Registration System
5. a written declaration to the regular payment of tuition fees
6. a proof of application fee payment, in case of transfer abroad (upon registration)
7. a health certificate stating that there are no objections to undertake studies by a foreign candidate
8. a stay legalisation in Poland (in case of foreigners)
9. a certificate of proficiency in English (equivalent at least to the level B2) / in the case of a proper diploma, a language certificate is not required

If the number of candidates exceeds a limit of places, candidates will be qualified on the basis of their GPA from all the maturity (secondary education) certificate subjects

UNDERGRADUATE PROGRAMME IN INTERNATIONAL RELATIONS

BA level, full-time

Undergraduate programme in International Relations (UPIR) is a unique opportunity for those who aim for a career at the supranational level. Whether what you aspire to is a position within an international organization, NGO, business or the government, UPIR's 3-year program is the best way to shape up your CV.

The Undergraduate Programme in International Relations (UPIR) is a 3-year first-cycle (BA level) degree full-time programme. It consists of six semesters (terms) and over 20 courses plus dissertation seminar aimed at thesis preparation and individual focus. All units are taught in English by experienced American and European academic teachers. The unique format of the Undergraduate Programme in International Relations not only introduces students to the workings within the field of International Relations, but also makes them responsive to interdisciplinary concerns such as law, business, history and culture.

During their studies at the Institute of International Relations students have the opportunity to profit from the broad offer of the mobility programmes. Students can profit from exchange programmes in our partner universities in the USA, Canada, Germany, Mexico, Brazil and over 50 other countries. The Institute cooperates also with over 100 European universities within the Erasmus+ network and is a member of several research networks.

The graduates of the Undergraduate Programme in International Relations should have acquired knowledge in economics,

social, legal and political sciences which give him/her understanding of how international relations and world economy function. The UPIR graduate should have analytical capacities, to understand local problems in a global perspective, as well as skills in communication, negotiation and persuasion. The graduate should be fluent in foreign language (level B2 according to the Common European Framework of Reference) and be able to use the advanced vocabulary in international relations topic. Our graduates are qualified to work in:

- central and local administration as mid-level policy officer or junior expert;
- international organizations or local institutions having international collaboration;
- enterprises present in international markets;
- non-international relations related institutions (which the interdisciplinary character of studies should enable).

JOURNALISM AND INFORMATION STUDIES

BA level, full-time

The BA "Journalism and Information Studies", offered in English language, prepares the graduates either for continuation of education at PQF second cycle (MA) level, or starting professional activity in the media or information institutions (departments) of different types, including PR or advertisement agencies. The students will be offered theoretical and methodological knowledge alongside

skills supporting their active participation in the media and information research projects or interdisciplinary undertakings. The curriculum, built on two scholarly perspectives, supports development of competencies indispensable for different roles or functions in social communication, including: development and use of information sources, their selection and evaluation, development of different types of messages, according to the needs and competencies of the users, research and analysis of actual social reception of information. A first cycle PQF (BA) graduate is also prepared to apply knowledge and competencies in professional communication, to use adequate ICT tools, to participate in team work. He/she also abides by professional ethical guidelines. He/she should be able to communicate in English language at B2 CEFR level.”

PHILOSOPHY

specialisation: Warsaw International Studies in Philosophy
BA level, full-time

Philosophy Studies in English (official name: “Warsaw International Studies in Philosophy”) in the Institute of Philosophy of the University of Warsaw is full-time six-semester programme taught entirely in English that provides comprehensive and systematic account of Western philosophy — from the wisdom of the first sages of Ancient Greece to the discussions led by philosophers around the globe today.

As a preparation for getting acquainted with the contemporary philosophical issues the programme includes several obligatory courses in the history of philosophy: Ancient Philosophy, Medieval Philosophy, Modern Philosophy, Analytic Philosophy, and Continental Philosophy.

The second main part of the programme are

the courses devoted to problems belonging to the main branches of today's philosophy, i.e. Logic, Advanced Formal Logic, Epistemology, Ontology, Ethics, Philosophy of Language, Philosophical Problems in Science, and Philosophy of Value & Anthropology.

Each student complements his own path of studying philosophy by choosing several courses from a wide range of optional subjects which includes Logic & Metaphysics Module, Moral Philosophy Module, seminars and monographic lectures.

Updated and improved programme, introduced in 2014/15 academic year, includes also several additional courses like Academic Philosophical Writing or Recent Polish Philosophy. Our programme will provide you with solid philosophical and academic background that will enable you to continue your studies at the Master's and PhD level at the universities around the world!

Admission for candidates with foreign diplomas

I STAGE: calculating the results obtained on a high school diploma (maturity) in:

- Polish language or original language of the maturity exam*,
- Mathematics,
- Modern foreign language*,
- one of the following subjects: Astronomy, Biology, Chemistry, Computer science, Geography, History, Philosophy, Physics.

* Original language of the maturity exam and modern foreign language must differ.

II STAGE: the qualification interview (in English) which concerns one of philosophical texts from the list announced by the Institute of Philosophy (a candidate is obliged to choose and prepare the text before the interview).

During the interview the Commission evaluates whether a candidate:

- is able to interpret chosen text him/herself,
- possesses predispositions to study Philosophy,
- possesses sufficient proficiency in English to study Philosophy in this language.

UNDERGRADUATE PROGRAMME IN POLITICAL SCIENCE

BA level, full-time

The program of studies consists of theoretical and practical courses, including courses preparing students to do research. They are obligatory or optional (the latter group enables students to develop their individual path of studies). The particular emphasis is placed on issues concerning the European integration as well as Poland and Central and Eastern Europe.

The subjects are among others:

- Introduction to Political Science, Research Methodology I and II, Political Analysis, Basic Concepts of Politics
- Political Philosophy, Theories of Democracy, Introduction to Political Sociology and Psychology
- Contemporary Political Systems – Theory and Empirical Studies, Contemporary Political Parties and Movements
- Political Marketing, Political Rhetoric
- Politics in the EU – Theory and Research, History of European Politics, EU Political System/ Common Foreign and Security Policy of the EU
- Politics in Central and Eastern Europe – Theory and Research, Political Systems in Central and Eastern Europe/Economic

and Energy Policy in Central and Eastern Europe, Contemporary Polish Political History/Poland in the EU

- World Politics – Theory and Empirical Studies; Transnational Politics – Theory and Research, Process of Globalization, Transnational Conflicts
- Middle Eastern Politics and Societies, Central Asian Politics and Societies

Selected participants of the Programme can complete a part of the studies abroad thanks to the Erasmus exchange.

Students apart from regular courses take part actively in the academic life, participating in different political science associations; conferences, debates and lectures of distinguished guests from all over the world invited often by our university as well as social events. Thanks to knowledge and skills developed during our studies they can win scholarships and awards within different competitions, e.g. for the best foreign students in Poland.

Graduates of the Programme will acquire the intellectual qualifications necessary for analysing political problems from an international perspective. Thanks to skill building activities provided during courses, they will be well trained in the art of communication, negotiation and persuasion. In order to receive the Bachelor's degree (official title in Polish: Licencjat), the graduates will be required to write a Bachelor's thesis and pass the examination.

You can learn more about the Undergraduate Programme in Political Science here:

<http://www.inp.uw.edu.pl/upips/>

Application and admission procedure

Candidates will be admitted on the basis of the submission of the required documents.

1. A secondary school leaving certificate or an IB Diploma (a copy certified by the University of Warsaw) and, in the case of foreign certificates:
 - legalisation or an apostille, if the document was issued by an educational institution of a country that is a party to the Hague Convention of 5 October 1961 Abolishing the Requirement of Legalisation for Foreign Public Documents (Journal of Laws of 2005, No. 112, items 938 and 939)
 - a sworn translation of the certificate into Polish (if it was made in a foreign language); in exceptional cases, the certificate in English or its sworn translation into English may be accepted
2. An application for admission printed out from the Internet Candidate Registration system
3. An application for an Electronic Student ID Card printed out from the Internet Candidate Registration system together with the application for admission (after the student's photograph has been uploaded to the system)
4. A copy of the ID used to register in the Internet Candidate Registration system
5. A written pledge to pay tuition fees regularly
6. A payment receipt for the administrative fee, if the payment was made abroad (after the registration)
7. A medical certificate stating no contraindications for undertaking

studies, provided with a translation, if it was issued in a language other than Polish (applies to foreign nationals)

8. A photocopy of a residence permit in Poland (applies to foreign nationals)
9. Certificate/document confirming the knowledge of English (at least B2 level)

When the number of candidates is greater than the limit of places candidates will be qualified based on the average ratings of all the subjects to be taken at the high school .

Long cycle (5-year
Master level)

PSYCHOLOGY

long cycle MA level, full-time (5 years)

WISP – the Warsaw International Studies in Psychology is a full 5-year master's (in Polish: magister) program in psychology. We offer you the chance to experience a unique combination of personalized small-scale education in a very international environment. Current WISP students come from over 30 different countries, and mention this global mix as something they value very much. With only 150 students in the entire program,

class sizes are small with on average 20 to 25 students. This makes it possible for you to interact with professors and other students personally. WISP students appreciate this personal, pleasant and interactive climate because it invites and stimulates them to be actively involved in classes and in the learning process in general, instead of being a passive listener in a large group. A good illustration of the personal approach at WISP is that professors and administrative staff typically know all students by their first name. Overall, about 120 professors are teaching at WISP, of whom nearly a third are visiting foreign professors, coming from countries like the USA, Canada, Germany, Switzerland, the Netherlands, the UK, France, Australia, Sweden, Austria, Israel, etc. Overall, WISP invites you to develop yourself and become a psychologist in a very stimulating academic environment that you may not find anywhere else. If you would like to know more about WISP and hear from our students directly, go visit www.psychology.pl

Admission for candidates with foreign diplomas

qualified on equal terms with Polish citizens

STAGE I: Calculating the GPA from all examinations (both oral and written) from the candidate's high school diploma (maturity diploma), converted into percentage points in proportion to the maximum results (if there are no maturity exams in a given country, the GPA from the last class of high school will be taken into account).

STAGE II: The final qualification for studies

is done on the basis of the interview conducted in English. For the interview the candidate needs to read one book chosen from the list announced by the Faculty of Psychology.

Points are awarded as follows:

- understanding of the text,
- independent thinking,
- motivation to study psychology.

qualified on different terms than Polish citizens

2nd cycle (2-year Master level)

AMERICAN STUDIES

specialisation: American Studies MA level, full and part-time

The American Studies Center of University of Warsaw (ASC UW) is one of the biggest American Studies departments in Europe. The Center is a part of the Institute of the Americas and Europe (IAiE), together with the Center for Latin American Studies (CESLA) and the Center for European Regional and Local Studies (EUROREG). The ASC employs over 20 faculty from Poland and the United States and provides excellent research facilities for students, scholars and professionals interested in the field. The ASC Library is the largest American Studies library in Central Europe, containing a sizable microfiche and microfilm collection and a wide array of recent academic publications.
The ASC runs interdisciplinary B.A., M.A. and postgraduate programs. All courses are

taught in English. Its faculty research and teach various aspects of the United States culture, society, literature, art, film, media, history, economy, politics, law, ideas, etc. Faculty are both Polish and international scholars; permanent faculty includes three professors from the U.S. Classes are taught by the Center's faculty and guest faculty. Graduates of the American Studies Center have specialized knowledge about American society and culture, and the relations between the U.S. and the world, including Europe. The first-cycle studies program, running for three years (six semesters), encompasses introductory lectures to the various disciplines that make up the curriculum, and a spectrum of electives; students are encouraged to enroll in elective classes which would inform their specific research projects. The program also includes an academic writing class (English composition) and other types of classes. The M.A. studies program encompasses introductory lectures to the various disciplines that make up the curriculum, and a wide spectrum of electives; students are encouraged to enroll in elective classes which would inform their specific M.A. research projects. The program includes also a writing proseminar, M.A. seminars, and other types of classes. The program runs for two years (four terms). Graduates will have earned a Master of Arts degree in cultural studies with an emphasis in American Studies.

Application and admission procedure

The programme is open to all international and Polish applicants. Eligible for admission are holders of a bachelor, master,

engineering, or equivalent degrees in any discipline.

The basis for qualification to study is a written exam, which is a test of predisposition to study in English. The test consists of questions checking reading comprehension and ability to work with written text.

Candidates must obtain at least 30% out of the 100 possible points. Based on the results of the qualification procedure, the Selection Board draws up ranking lists of all candidates.

ARCHAEOLOGY

MA level, full-time

The programme offers in-depth training in excavation of human and animal remains as well as courses in osteology, bone taphonomy and archaeological chemistry. Lecturers have substantial fieldwork experience in various areas of the Near East and specialized lectures and classes are accompanied by the general

curriculum in the archaeology of the Eastern Mediterranean and the Near East.

Graduates become professional excavators of cemeteries and animal bone deposits, with training in osteology sufficient for fieldwork macroscopic analyses of human remains, including sex and age assessment, basic paleopathology, stress markers, metric measurements and basic odontology. They are able to place results of bioarchaeological research in wider historical and ecological context, as well as to design various kinds of more specific laboratory research.

Application and admission procedure

The programme is open to all international and Polish applicants. Eligible for admission are holders of a bachelor, master, engineer or equivalent degree in any discipline, with fluent knowledge of English.

A qualifying interview is the basis for candidate admission. The interview is conducted in English. Its aims are assessment of candidate's ability to study archaeology as well as evaluation of the candidate's scope of interest in terms of the particular field of study.

In order to fill possible programme differences, enrolled candidates who are not graduates of first cycle studies in archaeology may be obliged to pass exams in selected subjects included in the programme of first-cycle studies in archaeology.

CHEMISTRY

MA level, full-time

Graduate of the second-cycle Chemistry Studies in English will:

- possess sufficient knowledge of chemistry, considerably improved since the first degree course;
- be fluent in and possess working knowledge of the issues within the chosen area;
- be sufficiently competent in the field of mathematics for quantitative description, understanding and modeling problems of average level complexity;
- be prepared to work in chemical laboratories, both traditional and those equipped with the state-of-the-art technology;
- be capable of gathering and critically analyzing data necessary to publish research results;
- be able to prepare and present papers as well as conduct content-related discussions with specialists;
- possess sufficient abilities to solve chemical problems, including the unusual ones, especially within chosen

specialization;

- be motivated for lifelong learning and professional development;
- be prepared to organize group work and manage team-work.

Application and admission procedure

The programme is open to all international and Polish applicants. Eligible for admission are holders of a bachelor, master, engineer or equivalent degree in any discipline as well as document acknowledging candidate's sufficient proficiency in English (B2 level).

A candidate is qualified according to his/her GPA obtained during previous studies.

For candidates who have completed their studies in the area of knowledge other than science or life science recruitment consists of two stages. In the first stage, candidates have to take part in the interview in English.

During the interview, the candidate discusses issues selected by the Examination Committee from the list previously published on the website of the Faculty of Chemistry and the system of Internet Registration of Candidates.

Obtaining satisfactory grade during the interview is a prerequisite for admission to the second stage of recruitment, which runs the same for all candidates and is based on candidates' GPAs obtained during previous studies.

ECONOMICS

**specialisation: International Economics
MA level, full-time**

This programme offers cutting-edge knowledge and skills in the field of international economics and is one of the best graduate programmes in Central and Eastern Europe. The selection of courses aims at providing students with a solid base in economics at an advanced level and making them familiar with the latest issues discussed in scientific research and business.

Students are also offered an opportunity to obtain a double degree diploma: after having completed their first year in Warsaw, selected students spend their second year at a partner university in Austria (University of Vienna), Belgium (Catholic University of Louvain), Hungary (Central European University in Budapest) or Portugal and after defending their thesis, they receive two diplomas.

Potential career opportunities:

Experts, advisers, consultants, analysts in the field of: international trade negotiations,

foreign investment, technology transfer, global financial markets, international corporations, currency market, labor market, migrations.

Courses within the programme:

- Advanced Microeconomics (General Equilibrium + Game Theory, Growth + Business Cycles),
- Microeconometrics,
- Mathematical Methods in Economics,
- Monetary Economics,
- Macroeconometrics,
- International Labor Migration,
- International Trade Theory,
- International Trade Policy,
- International Economic Geography,
- International Finance,
- International Monetary Policy,
- Theory of Economic Integration,
- Economics of Transition,
- International Marketing,
- Research and thesis seminar,
- General knowledge courses (intellectual property, language etc.)

Application and admission procedure

The programme is open to all international and Polish applicants. Candidates must:

- have a bachelor, master, engineer or equivalent degree,
- confirm proficiency of English at least at B2 level: accepted certificates: FCE, CAE, CPE, BEC, CEIBT, IELTS, TOEFL, CELS, TSE, NKJO (Does not apply to candidates graduated from high school or college with English as language of instruction.).
- submit a statement of purpose/cover letter and two letters of recommendation from

- academics with at least PhD degree, who know the candidate personally,
- present a transcript of records for the relevant undergraduate cycle (diploma supplement from the EU or the equivalent in other countries).

Qualification is based on the ranking list.

Ranking points are calculated as following:

- points for a cover letter: max 100 pts (10% weight)
- points for letters of recommendation: max 100 pts for each letter (10% weight for each letter)
- points awarded for subjects completed during previous course of study: each subject max 100 pts (each subject 10% weight) – number of hours and received grade are taken into account.

During the verification process Admission Committee takes under consideration following subjects: Microeconomics, Macroeconomics, Mathematical Statistics, Probability Calculus, Econometrics, Mathematical Analysis (Mathematical Calculus), International Economic Relations or International Trade Theory or Theory of International Exchange.

In the procedure candidate may receive max. 100 ranking points.

ENGLISH STUDIES

MA level, full-time

The English Studies major is considered part of the humanities. It encompasses courses in the fields of Theoretical- and Applied Linguistics as well as those relating to the Literature and Culture of the nations of the Anglosphere, among them Great Britain, the United States, Ireland, Canada, Australia, the Republic of South Africa, and others. Emphasis is put on the practical application of the knowledge acquired.

The central theme of the programme is the customization of study. Students choose their thesis seminars according to their interests and preferences. The choice of seminar determines course modules, including specialization courses.

Highly personalized course requirements encourage students to build their own study programme under the guidance of a qualified thesis advisor. This study programme not only gives students the opportunity to broaden their knowledge of either Linguistics or British and American Literature and Culture but also promotes cross-discipline research.

The Institute presents students with a variety of thesis seminars, taught by distinguished professors. The concept of building one's study and research experience around a thesis seminar in which teachers collaborate with students is as innovative and unique as our course system. The central theme of the

programme is the customization of study.

Though students are obligated to attend compulsory courses, the majority of their study experience consists of elective courses tailored to individual interests and needs. Providing students with the opportunity to influence their academic experience is what makes our Institute one of a kind.

The level of study personalization offered at our Institute cannot be matched by research facilities that have not adopted a course system.

All primary courses and electives associated with a student's major are taught in English. In addition, we offer courses that incorporate the CLIL (Content and Language Integrated Learning) method of teaching.

Instead of limiting our courses to specific professional training, our study programme focuses on the development of useful transferrable skills that are highly sought after by many employers, among them self-training, teamwork, decision-making, composition, or public speaking. This is one of the reasons why our students can look forward to prospective careers in various fields. Through the application of our unique teaching methods students develop critical thinking, reflection, and problem solving skills.

Graduates of the programme possess a C2 Level knowledge of English (according to the EQF) and are trained extensively in linguistics as well as the culture, literature, art, and sociology of English-speaking

countries. In addition, their knowledge of the humanities makes them well-suited for both academic and professional careers. With the completion of a teacher training course, they are qualified to teach English at all levels.

Application and admission procedure

Admission is based on a C1 English language exam.

Note: a C1 certificate issued by the Institute of English Studies or by the University of Warsaw within the previous 5 years absolves the student from taking the test.

A candidate has to get a minimum of 50 % of the score from the C1 exam in English, or has to present the C1 (or C2) certificate issued by the by the University of Warsaw. The admission is based on the score ranking list according to the admission limits. The ranking list is made on the basis of scores from the C1 exam organized by the Institute of English studies and the C1 (C2) certificate issued by the University of Warsaw.

ENVIRONMENTAL MANAGEMENT

MA level, full-time

The Interfaculty Master's Degree Programme "Environmental Management" is a joint initiative of three Faculties of the University of Warsaw (Biology, Chemistry and Management). Our interdisciplinary scientific courses are focused on a modern approach to sustainable management and conservation of natural environment. Students of our programme gather complex theoretical and practical knowledge of legal, organizational and social considerations of environmental issues. They gain up-to-date knowledge on biological basis of environmental management, including assessment of local and global environmental threats. Students learn the newest analytical and "green chemistry" technologies. They study financial and economic aspects of environmental

management, including economics of natural resources; practise decision making, project management and business modelling.

Application and admission procedure

The programme is open to all international and Polish applicants. Eligible for admission are holders of a bachelor, master, engineer or equivalent degree in any discipline.

Qualification procedure is based on the interview in English, which examines the candidate's knowledge in the field of undergraduate programme in one of the following disciplines: biology, chemistry, management science.

Recruitment committee can allocate maximum 40 points. The minimum number of credits eligible for admission is 20. All candidates who have obtained more than 20 points are placed in the ranking, according to the decreasing number of points.

EUROPEAN ADMINISTRATION

MA level, full and part-time

The major aim of the European Administration Masters program is to prepare students for posts in Public

Administration institutions implementing the EU law in Poland. Graduates will be prepared for posts as officials in the EU and other international structures, NGO's, lobbying and consulting firms as well as for economic activities in the EU market. The program is open to all international and Polish applicants. Except for obligatory courses, students attend specialization courses. They may choose from the following specializations: - European Affairs Management - EU Funds and Programmes - EU Diplomacy.

Application and admission procedure

The programme is open to all international and Polish applicants. Eligible for admission are holders of a bachelor, master, engineer or equivalent degree in any discipline, who possess knowledge of English at the B2 level confirmed by one of the following:

- language certificate examination,
- certificate from UW Centre for Foreign Language Teaching,
- higher education diploma supplement.

Candidates who do not have evidence of English language at the B2 level, take an exam to prove knowledge of that language. However candidates undertaking studies on different terms than applicable to Polish citizens are obliged to submit the appropriate certificate/document confirming English language knowledge at least at the B2 level . Qualification procedure is based on a final higher education diploma grade.

FINANCE, INVESTMENTS AND

ACCOUNTING

specialisation: Quantitative Finance MA level, full-time

The distinctive feature of this programme is a combination of the overall fundamentals of the economic theory with a specialized knowledge of finance, which has been recognized by international ranking providers: 19th best programme in the world according to the Eduniversal ranking „Top 100 programmes in financial markets” in 2016.

Graduates are equipped with the theoretical knowledge and practical applications which enable them to make independent decisions based on the real-time financial data with the use of tools and techniques dynamically developing in modern finance. The degree combines economic methods, quantitative techniques and state-of-the-art financial analyses to give students a strong background to pursue their careers. Students are encouraged to develop their abilities to apply economic analysis in a variety of financial-related problems.

Potential career opportunities:

Risk Management, Investment Analysis, Derivatives Pricing, Propriety Trading,

Portfolio Management, Financial Consultancy, Academic and Industrial Research, Financial Products Development.

Courses within the program:

- Statistic & Econometrics,
- Macroeconomics of Finance,
- Mathematical Methods in Finance,
- Time Series Analysis,
- Advanced Microeconomics (Asset Pricing),
- Advanced Macroeconomics,
- Quantitative Strategies (High Frequency Data),
- Financial Statement Analysis,
- Ethical Standards and Financial Law,
- Asset Allocation and Investment Strategies I, II,
- Derivatives Markets,
- Equity and Fixed Income,
- Corporate Finance,
- Computational Finance,
- Risk Analysis and Modelling I, II,
- C++ in Quantitative Finance I, II,
- Theory and practice of option pricing,
- Empirics of Financial Markets,
- Automatic Transactional Systems,
- Thesis Seminar,
- General knowledge courses (intellectual property, etc.)

Application and admission procedure

The programme is open to all international and Polish applicants. Candidates must:

- have a bachelor, master, engineer or equivalent degree,
- confirm proficiency of English at least at B2 level: accepted certificates: FCE, CAE, CPE, BEC, CEIBT, IELTS, TOEFL, TOEIC (at least 700), CELS, TSE, NKJO. Does

not apply to candidates graduated from high school or college with English as language of instruction.

- submit a statement of purpose/cover letter and two letters of recommendation from academics with at least PhD degree, s who know the candidate personally,
- present a transcript of records for the relevant undergraduate cycle (diploma supplement from the EU or the equivalent in other countries).

Qualification is based on the ranking list.

Ranking points are calculated as following:

- points for a cover letter: max 100 pts (10% weight)
- points for letters of recommendation: max 100 pts for each letter (10% weight for each letter)
- points awarded for subjects completed during previous course of study: each subject max 100 pts (each subject 10% weight) - numbers of hours and received grade are taken into account.

During the verification process Admission Committee takes under consideration following subjects: Microeconomics, Macroeconomics, Mathematical Statistics, Probability Calculus, Econometrics, Mathematical Analysis (Mathematical Calculus), Finance.

In the procedure candidate may receive max. 100 ranking points.

MASTER PROGRAMME IN HUMANITARIAN ACTION

MA level, full-time

The Master Programme in Humanitarian Action (HA) provides students with a broad education and training in the area of international humanitarian action, in which critical thinking and research skills are emphasised. Moreover, the interdisciplinary Master's degree combines theoretical and analytical knowledge and skills with a more hands-on approach. Courses are taught by a combination of in-house experts and field-experienced guest lecturers.

The Programme in HA has both specialised and interdisciplinary dimensions and offers education primarily in the area of political science and law, but also in management, anthropology and public health. Moreover, the curriculum offers several practical elements (i.e. simulations, obligatory internship) which enhance the graduates' prospects on the job market.

As part of the Programme, students undertake two semesters of mobility. The first mobility involves an orientation period (thematic specialisation) at one of the NOHA partner universities in Europe, whereas the second is an introduction to

one's own research in a selected part of the world (Eastern Europe, Latin America, South-East Asia, South Africa, North America), continued during the preparation of the master thesis. The Programme's goal is thus to train high-level, committed, interdisciplinary personnel who can critically analyse and research humanitarian action and can function with enhanced professionalism and full awareness of the social, political, legal, cultural and security issues while providing quality services in the broad field of humanitarian relief, informed on its theoretical insights and humanitarian principles.

The Programme in Humanitarian Action is intended for individuals working in or aspiring to work in the field of humanitarian relief and international cooperation, in particular in humanitarian agencies, multilateral aid institutions, NGOs and private foundations, government agencies and well as think tank/ research centres focusing on humanitarian and development assistance.

The Joint Master Programme in International Humanitarian Action is an inter-university multidisciplinary programme which was created in 1993 as a result of concerted efforts of the NOHA Universities, in close collaboration with two Directorates-General of the European Commission: the DG for Humanitarian Action and Civil Protection (ECHO) and the DG for Education and Culture.

The Programme was developed and is operated jointly by the Faculty of Law & Administration and the Faculty of Journalism & Political Sciences (Institute of International

Relations), in cooperation with partner universities associated in the Network on Humanitarian Action.

Application and admission procedure

Enrollment:

Master studies in Humanitarian Action offered by the University of Warsaw are part of the Network on Humanitarian Action (NOHA) Joint Master Programme. All applications must be made on-line on the NOHA website (<http://nohanet.org/>) where detailed information about the admission procedure and deadlines for applications is also available.

Applications MUST include the following documents:

- certified copy of diploma and, if available, diploma supplement (if not in English, please attach an official translation),
- certified copies of academic transcripts (if not in English, please attach an official translation),
- Curriculum Vitae (Europass model: <http://europass.cedefop.europa.eu/en/documents/curriculum-vitae>),
- photocopy of a valid passport (only the main pages),
- 2 reference letters (in English).

Admission rules:

Timeline and deadlines for applications through the NOHA website

- **1st January** of each year: Opening of the call for all candidates.
- **30th April** of each year: Application deadline for all candidates.

The University of Warsaw considers late applications until the end of August each year.

If this is the case, please contact the local NOHA office directly at noha@uw.edu.pl.

The NOHA Consortium undertakes a pre-selection procedure based on fulfilling formal requirements by the applicants (application completeness), and subsequently transfers to the University of Warsaw all applications which stated UW as a home university. The Interfaculty Admission Committee reviews all applications.

Candidates seeking the admission must have completed level first or second cycle degree. They also should be able to present proof of language proficiency in English on a C1 level or better (according to the Common European Framework of Reference for Languages - CEFR).

Selection criteria include motivation, academic qualifications, language skills, research and professional experience. Practical experience in the area of humanitarian action in governmental, inter-governmental and/or non-governmental organisations and institutions is valued but not mandatory.

The candidates will be assessed on the basis of:

- academic qualifications (0-25p),
- language skills (0-10p),
- professional and research experience (0-10p),
- motivation statement (0-5p).

The final result is the sum of points awarded for each criterion. The top 25 candidates are qualified to the programme. The remaining candidates are placed on the reserve list.

INFORMATICS AND ECONOMETRICS**specialisation: Data Science****MA level, full-time**

This programme is dedicated to candidates who wish to be data analysts possessing a broad set of skills and comprehension of the business and economic processes. The programme is based on four pillars: quantitative methods, computer science / programming, economics / finance, soft skills.

Knowledge and skills:

- You will combine skills of programming, data analysis using sophisticated algorithms with database management, visualisation and work flow.
- You will be able to understand business customers' needs and solve their problems with data management and analytics.
- You will use R, Python, SQL.
- You will acquire knowledge about the rules of negotiations.

Courses within the programme:

Quantitative methods module:
 Statistics / Exploratory Data Analysis,

Introduction to Data Science, Advanced Econometrics, Machine Learning 1 – Classification Methods, Machine Learning 2 - Predictive Models, deep learning, neuron network, elective course

IT module:

R Intro / Data Cleaning & Imputation in R, Python & SQL Intro /SQL Platforms (Oracle, R, Python), Basics of Visualisation in R, Algoritmics, Webscrapping & Social Media Scrapping in R / Python, Advanced Programming in R, Advanced Visualisation in R, Webb Applications in Python, Text Mining, Big Data (Hadoop, Spark), Reproducible Research, elective course (tools)

Economics module:

Applied Microeconomics, Applied Macroeconomics, Applied Finance, elective course (economics / finance)

Soft skills module:

Communication and auto-presentation, Negotiations, Understanding Business

Application and admission procedure

The programme is open to all international and Polish applicants. Candidates must:

- have a bachelor, master, engineer or equivalent degree,
- confirm proficiency of English at least at B2 level; accepted certificates: Cambridge/FCE, CAE, CPE, BEC, CEIBT, IELTS, TOEFL, TSE, diplomas of UW NKJO. This requirement does not apply to candidates graduated from high school or college with English as language of instruction,
- submit a statement of purpose/cover letter

and two letters of recommendation from academics with at least PhD degree, s who know the candidate personally,

- present a transcript of records for the relevant undergraduate cycle (diploma supplement from the EU or the equivalent in other countries).

Qualification is based on the ranking list.

Ranking points are calculated as following:

- points for a cover letter: max 100 pts (10% weight)
- points for letters of recommendation: max 100 pts for each letter (10% weight for each letter)
- points awarded for subjects completed during previous course of study: each subject max 100 pts (each subject 10% weight) - numbers of hours and received grade are taken into account.

During the verification process Admission Committee takes under consideration following subjects: Microeconomics, Macroeconomics, Mathematical Statistics, Probability Calculus, Econometrics, Mathematical Analysis (Mathematical Calculus), Finance.

In the procedure candidate may receive max. 100 ranking points.

INTERNAL SECURITY

specialisation: Graduate Programme in Security Studies

MA level, full-time

The Institute of Political Science, University of Warsaw, as one of the first academic centres in Poland, decided to launch a new field of study – Internal Security. The educational profile is the answer to the demand for both the knowledge as well as the practical preparation in the area of national security and public order. Graduate Programme in Security Studies (GPSS) is addressed to persons with a Bachelor's degree awarded upon completion of a Bachelor's degree program (undergraduate studies) in Poland or elsewhere. It is a second-cycle full-time graduate studies (2 years). The language of tuition is English. The studies are fee-paying. The study programme covers both theoretical (such as Theory of Security) and practical (f.ex. Emergency Management) courses. In order to receive the Masters's degree, the graduates will be required to write a Masters's thesis and pass the examination. Our Programme creates various jobs opportunities such as working in public and state institutions, law enforcement agencies, local governments and schools of higher education. Apart from the regular courses our students are also invited to take part in the academic life by participating in events such as: conferences, debates, lectures of guests from all over the world and numerous social events. You can learn more about our studies here: <http://www.gpss.inp.uw.edu.pl>

Application and admission procedure

The programme is open to all international and Polish applicants. The candidates must obtain a bachelor, master, engineer or equivalent degree in any discipline.

The candidate should:

- have knowledge of the social and legal issues, which constitutes the basis for understanding the internal security;
- understand and have the ability to analyze phenomena related to security on a global, national, regional, local scale;
- have a basic knowledge of political science and other social sciences, human rights and the functioning of the state (forms, purposes, functions, system);
- be familiar with the tasks and functioning of the central and local organs of state, including the location and role of the public authorities responsible for internal security;
- know the full range of issues related to internal security, particularly related legal regulations and crisis management issues;
- have English language skills at the level allowing to study in this language – at least level B2;

A candidate who does not meet the above mentioned criteria of knowledge, skills and competence, may complete the compensatory courses.

Candidates are admitted on the basis of the documents submitted until all places have been filled.

When the number of applications exceeds the limit of students, the additional procedure starts.

Candidates write the essay in English on

security issues which is sent by email or post.

The essay tests the English language skills and the general knowledge of subjects included in the programme of studies, as well as scientific skills.

A candidate can obtain 30 points maximum as a result of assessment of the following issues:

- English language skills – 0-10 points
- correctness of argumentation, hypotheses formulation and conclusion drawing – 0-10 points
- knowledge of the discussed issues – 0-10 points.

INTERNATIONAL BUSINESS PROGRAM

MA level, full-time

International Business Program is 2-year M.A. highly ranked study program with nearly twenty years of history as its first edition started in 2000. Aim of the program is to make the students familiar with economic practice, customs and structure of economic and financial systems in other countries. We educate future business leaders, ready to play active and responsible roles in the

global economy. The studies are conducted with help of visiting professors from top U.S., European and Asian business schools. The English-language studies are full-time and incorporate case studies, project assignments and business simulations.

IBP students come from all continents, and friendship networks among our graduates proved to be an indispensable asset in their international business operations.

Graduates of International Business Program have complex knowledge in economics, finance, accounting, marketing, international law and the rules and strategies of international corporate functioning.

Graduates are capable of performing tasks in international business. They may also find work in international political, economic and financial organizations, as well as in business organizations and public administration. They are able to analyze economic and political phenomena, as well as identify and analyze the relationships between them.

Foreign students who are at the University within the framework of an exchange scheme, may also participate in this course.

Application and admission procedure

The programme is open to all international and Polish applicants. The candidates must obtain a bachelor, master, engineer or equivalent degree in any discipline.

Admission of candidates is based on:

- an average of grades obtained during previous studies,
- a final diploma grade.

Candidates must have their competence in English certified by:

- a certificate of proficiency in English (at

least B2 level), or

- IB, EB diploma, or
- high school diploma/Bachelor diploma/ Master diploma confirming graduation from High School/University with English language as language of instruction

GRADUATE PROGRAMME IN INTERNATIONAL RELATIONS

MA level, full-time

The Institute of International Relations, University of Warsaw, offers an exceptional opportunity to join studies delivered entirely in English in one of the best universities in Central Europe and obtain the master level degree in International Relations.

The Graduate Programme in International Relations is designed for students who are open for opportunities created by globalizing world.

The Graduate Programme in International Relations (GPIR) is a 2-year second-cycle (MA level) degree full-time programme.

It consists of four semesters (terms) and over 20 courses plus dissertation seminar aimed at thesis preparation and individual focus. All units are taught in English by

experienced American and European academic teachers. The unique format of the Graduate Programme in International Relations not only introduces students to the workings within the field of International Relations, but also makes them responsive to interdisciplinary concerns such as law, business, history and culture.

The programme is addressed to students who have obtained Bachelor, Master of Arts or equivalent degree in international relations or related areas, and prepare to work in institutions and companies dealing with wide-ranging repertoire of international issues. The studies offer an array of options to specialize in: security and strategic studies, modern diplomacy, European integration and international trade policy. Our graduates can continue their studies at the doctoral level or start their professional career in a variety of areas either in the public or private sector.

During their studies at the Institute of International Relations students have the opportunity to profit from the broad offer of the mobility programmes. Students can profit from exchange programmes in our partner universities in the USA, Canada, Germany, Mexico, Brazil and over 50 other countries. The Institute cooperates also with over 100 European universities within the Erasmus+ network and is a member of several research networks.

The purpose of teaching international relations is to develop the following interdisciplinary skills: ability to describe the

contemporary world, to explain phenomena and processes, to interpret rules and latest developments in international relations as well as mechanisms governing national foreign policies, to evaluate and forecast actions and behaviour of international life participants, and to participate practically in the international environment.

Application and admission procedure

The programme is open to all international and Polish applicants. The candidates must obtain a bachelor, master, engineer or equivalent degree in any discipline.

Form of examination: qualification interview in English language

Examination issues (topics):

- fluency in English,
- international political relations,
- international economic relations,
- public international law.

The final result is the sum of points awarded for each part of the exam. Candidate may receive up to 24 points (6 for each subject). In case of a larger number of candidates with the same number of points at the last place of the list of persons qualified for admission (and the Institute of International Relations will not be able to accept them because of the limit places), the enrolment of those candidates will be based on ranking of grades in their higher education diplomas.

GRADUATE PROGRAMME IN POLITICAL SCIENCE

MA level, full-time

The program of studies consists of theoretical and practical subjects that enable obtaining the extensive knowledge as well as skills and social competences in political sciences. It focuses on Europe (first of all the European Union as well as Central and Eastern Europe – because of this the Program has a strong profile of both European and regional studies).

The subjects within the program are among others:

- Polish and General Contemporary History, History of Political Institutions, Historical Politics in Europe
- European Political Systems, Political Institutions of the EU, European Law
- Transformation in Central and Eastern Europe, Russian Politics
- International Relations, Foreign Policy of Poland, Transnational Processes and Governance
- Theory of Politics, Methods in Political Research, Political Thought
- Sociology and Psychology of Politics,

Social Movements

Selected students can complete a part of the studies abroad thanks to the Erasmus exchange and double diploma program (with the University in Konstanz, Germany).

Students - a multicultural group from different countries and continents - apart from regular courses take part actively in the academic life, participating in different political science associations; conferences, debates and lectures of distinguished guests from all over the world invited often by our university as well as social events. Thanks to knowledge and skills developed during our studies they win scholarships and awards within different competitions, e.g. for the best foreign students in Poland.

We teach also diplomats from foreign embassies - the fact that proves the high quality of our studies. In order to receive a magister, i.e. a second cycle MA degree, the graduates will be required to write a Master's thesis and pass the examination. The studies are fee-paying. The language of tuition is English.

The graduates will be fully qualified to take up the posts of analysts and specialists in public administration, universities, national or international institutions and organizations, and companies operating in international markets.

You can learn more about the Graduate Programme in Political Science here:
www.inp.uw.edu.pl/mdsie

Application and admission procedure

The programme is open to all international and Polish applicants. The candidates must obtain a bachelor, master, engineer or equivalent degree in any discipline.

A candidate to the studies should:

- have a general knowledge that enables him/her to understand the political phenomena and processes on the global, regional, national and local level as well as to analyze the relationship between the political institutions, societies and individuals;
- know the historical determinants and contemporary mechanisms of working of political systems;
- have the English language skills that enable him/her to study in this language.

A candidate who does not fulfill above mentioned knowledge, skills and social competences criteria can be obliged to complete the compensatory courses.

Candidates are admitted on the basis of the documents submitted until all places have been filled.

When the number of applications exceeds the limit of students, the additional procedure starts. Candidates prepare the essay in English on political science issues which are sent by email. The essay tests the English knowledge, argumentation correctness (the general knowledge of subjects included in the programme of studies) as well as scientific skills.

A candidate can obtain 30 points maximum as a result of assessment of the following issues concerning the essay:

- English knowledge – 0-10 points
- correctness of argumentation, hypotheses formulation and conclusion drawing – 0-10 points
- Scientific skills – 0-10 points.

GRADUATE PROGRAMME IN TEACHING ENGLISH TO YOUNG LEARNERS

MA level, full-time

The graduates GPTE have a broad and interdisciplinary knowledge in the areas of language acquisition, young learner pedagogy, language teaching methodology with special focus on language and content integration (CLIL), as well as language assessment. All courses are offered in English. A diversity of teaching approaches is used including teacher portfolio, action research and project work. In addition, student teachers have the opportunity to participate in a series of workshops and lectures offered by experts in the field of young learner language teaching and learning. Much emphasis is put on preparing student teachers to conduct teacher research and solve practical classroom challenges. Student practice takes place in selected schools and preschools which offer extended English language teaching curricula. GPTE graduates are prepared to teach English in preschools as well as in grades 1-3 of primary schools, both in regular foreign language classes and in institutions which offer bilingual curricula. They:

- have specialized knowledge about sociological, psychological and pedagogical theories concerning young learners' development and education,

as well as their implications for various teaching contexts.

- know teaching methods appropriate for pre-school and early school children
- use theoretical knowledge to design teaching and learning processes at different stages of education including practical applications of various phenomena of social life
- evaluate and justifies the effectiveness of teaching methods used at different stages of education and is able to prepare evaluation reports in English, both in written and oral form
- adjust teaching methods to individual learners' needs at different stages of education
- understands the need for continuous professional development by integrating knowledge from a variety of fields
- cooperate with other teachers and school professionals while problem solving, supports others and use others' support to contribute to democratic functioning of the institution
- are creative, open to new initiatives and innovations in teaching, leading towards learner development, parental involvement as well as the integration with local community. Care for preserving the cultural heritage

Application and admission procedure

Candidates admitted on equal terms with Polish citizens

The programme is open to all international and Polish applicants. Entry requirements include a bachelor, master, engineer or equivalent degree in any discipline.

Admission of candidates is based on:

- a final diploma grade,
- a grade average from the previous studies,

The final score is a sum of final diploma grade and grade average from the previous studies.

Candidates must have knowledge of English at C1 level, confirmed by an appropriate certificate or grade in transcript /supplement, provided that the credit of the English language was held in the form of an exam and the level of proficiency was specified there.

Candidates for the specialisation English for Young Learners, CLIL and Early Education are required to present knowledge of the Polish language at the C1 level, confirmed by final examination (Matura) in Polish or a certificate confirming knowledge of Polish as a foreign language at minimum C1 level. In the absence of proof of knowledge of Polish, the Recruitment Commission may agree to conduct an exam to confirm the knowledge of the language.

Candidates admitted on different terms than Polish citizens

Form of examination: oral exam in English, which tests candidate's skills of expression and reading comprehension in the English language, as well as a general understanding of the matters to be the subject of future studies.

Candidates must have knowledge of English at C1 level, confirmed by an appropriate certificate or grade in transcript /supplement, provided that the credit of the English

language was held in the form of an exam and the level of proficiency was specified there.

Candidates for the specialisation English for Young Learners, CLIL and Early Education are required to present knowledge of the Polish language at the C1 level, confirmed by final examination (Matura) in Polish or a certificate confirming knowledge of Polish as a foreign language at minimum C1 level. In the absence of proof of knowledge of Polish, the Recruitment Commission may agree to conduct an exam to confirm the knowledge of the language.

PHD STUDIES AT UW

The University of Warsaw provides over 30 doctoral programmes, including interdisciplinary and international ones. They are aimed at people who are interested in scientific activity and in conducting advanced researches. However, doctoral programmes are also aimed at people who strive to reach a higher level of their professional career. Additionally, they help gain experience in didactical work.

Doctoral studies at the University of Warsaw help gain advanced knowledge and skills in a particular scientific/academic field. At the same time they also effectively prepare for an individual research activity. Currently the University of Warsaw provides two full time international PhD programmes that are held in English language: one at the Faculty of Political Science and International Studies and one at the Faculty of Oriental Studies. The Faculty of Applied Linguistics also plans to launch a full-time doctoral programme

held in English language in near future. Additionally, most of the Faculties of the University of Warsaw provide individual doctoral programmes held in English that are aimed especially at students from abroad. At the University of Warsaw there is also a possibility to conduct a joint doctoral assessment process under co-tutelage agreements. It enables a doctoral candidate to prepare one doctoral dissertation under dual supervision (supervisor at the University of Warsaw and co-supervisor at the foreign partner institution) and leads to the conferment of a degree of “doktor” at the University of Warsaw and an equal degree at the foreign partner institution after a defence of the thesis conducted at one of the institutions before a commission consisting of members from two partner institutions. International doctoral students from the European Union are eligible to study at the University of Warsaw under the same conditions as Polish doctoral students –

without tuition fees and with the possibility of receiving doctoral scholarships provided by the University of Warsaw (if they meet proper requirements). The international doctoral students from outside of the European Union study under different conditions. They are admitted to doctoral studies by the Rector of the University of Warsaw (after receiving a proper opinion from the Faculty) and are obliged to issue annual tuition fees. In some cases the Faculty can however agree to enrol a doctoral student from outside of the EU free of tuition fees and with no scholarship entitlement. Such PhD students do not have to issue tuition fees but are not eligible to receive any scholarships provided by University of Warsaw.

Foreign PhD candidates of Polish descent are eligible to apply for a Polish Government Scholarship. There are also Polish Government Scholarship programmes for doctoral students from Eastern Europe.

MBA STUDIES

Executive MBA

The Executive MBA Program at the University of Warsaw is a general management program that equips senior managers with the tools and perspectives required to manage and lead a company, business unit or any complex organization.

Our program is designed for the experienced manager who needs to increase his or her knowledge base, enhance skills and acquire new abilities in a variety of management fields.

The Executive MBA Program at the University of Warsaw was first in its kind in Poland. In 1991, our joint Master of Business Administration degree program was offered as a partnership between the University of Warsaw and the University of Illinois and funded by the Mellon Foundation. Since then, 22 cohorts of students, i.e., almost 1000 people, graduated from our Program. Every year, CEOs, management board members, and their direct subordinates make 60% of our students, representing leading Polish and International enterprises.

The Executive MBA Program at the University of Warsaw:

- is **Designed** for Executives,
- **focuses** on strategy and innovation in international contexts,

- is **Accredited** by AMBA and grants an internationally recognized MBA diploma,
- is **Taught** in English,
- is **Staffed** by faculty from Illinois, Cambridge, Oxford and Warsaw,
- **Provides** study tours abroad,
- **Partners** with the corporate world.

During our EMBA program you will:

- Acquire **up-to-date knowledge** in many of the functional areas of business. The program covers marketing, finance, human resource management, supply chain management, accounting, law, and many other management disciplines.
- Become immersed in a unique **learning experience**. Students and faculty engage in a series of debates and discussions where the demands of practical, high-velocity, real world challenges meet reflective theory in a collegial and productive fashion.
- Study **in English** among other managers from **top companies** in Poland and Europe.

ADMISSIONS REQUIREMENTS AND PROCEDURES

Students admitted to the EMBA program must fulfill all the admissions requirements for postgraduate study at The Warsaw University. Fulfillment of these requirements ensures the continuing quality and success of the EMBA program.

The following is required of prospective students:

- A four-year U.S. or equivalent degree (Polish or other),
- A minimum 3 years professional experience, which includes meaningful management responsibilities,
- A minimum of two letters of reference from current and/or former employers/supervisors,
- A working knowledge of English,
- Satisfactory completion of an entrance examination on mathematics (basic calculus level), logical reasoning, and problem solving,
- Personal Interview (in English)
Students are interviewed by faculty and administrators from both Illinois and Warsaw, and past graduates of the EMBA program.

See more at: www.mba.uw.edu.pl

International MBA

A two-year MBA Programme provided in English has been organized since 1993 by the Centre for Management Training (CMT) in co-operation with its partner universities. Present partners in the International MBA Programme, in addition to CMT itself, are: The University of Warsaw, Bergische Universität GSH Wuppertal, The Ohio State University, The Bloomsburg University of Pennsylvania. The Programme is conducted by Dr hab. Roman Glowacki, University of Warsaw full professor, CMT President, alumnus of Harvard

Business School.

CMT and its MBA programme is highly regarded both in Europe and elsewhere.

Since its foundation CMT has cooperated with Harvard Business School. The Centre's MBA programme has occupied first and second places in the rankings of Poland's master-level business programmes for the past 20 years. International institution - Eduniversal Scientific Committee - has rated this programme as the top one (first position) in Eastern Europe and the best one in Poland.

CMT's MBA programme is geared to the needs of today's and tomorrow's managers active in private or public organizations in Poland or abroad. The conceptual framework of the programme is based on the following premises:

- guaranteeing a high academic standard of the educational programmes as set by leading Western management schools;
- openness of the Centre's faculty and students to a wide range of management theories, philosophies and approaches as well as respect for different opinions and views;
- international character in terms of curriculum content, the faculty involved in lecturing and the student body;
- fostering the development of the managerial skills necessary for professional leadership in the public, non-profit and for-profit sectors. The goal of the programme is to coach and train skilled, knowledgeable managers

who can effectively meet the multiple responsibilities of the business world and public institutions;

- accomplishing educational goals by the most efficient use of dedicated funds. The MBA programme has been developed and is regularly updated on the basis of the educational experience acquired by CMT and its partners;
- in accordance with AACSB requirements the programme is spread over 2 years;
- strong emphasis is placed on case studies and on these aspects of the various subjects taught which are particularly relevant to a "European economic integration" perspective.

ENTRANCE REQUIREMENTS

Candidates for the MBA Programme at CMT need to hold a final degree awarded by a recognized institution in Poland or abroad (university or equivalent). They should have an adequate command of English language (at least "good" for active use and "very good" for passive use) and a minimum of two years of practical professional experience. They will be invited for a personal interview with the Selection Committee. The tuition fee for the first MBA year is 7000 EUROS or the equivalent in PLN at the average NBP selling price (National Bank of Poland). The enrolment fee for the second year is the same. Recruitment process is ongoing.

GlobalMBA

The GlobalMBA is a unique 15-month intensive, team-work oriented graduate management program providing students the opportunity to combine intensive classroom study with residential experiences in four countries: Germany, Poland, China and the United States. The GlobalMBA is offered by a consortium of four outstanding universities:

GLOBALMBA CONTENT & STRUCTURE

Each university selects a small group of students who function as a cohort throughout the GlobalMBA. The cohort of approximately forty students studies together spending one term at each institution. Students work in different multicultural teams over the whole program duration on pressing issues in global industry strategies. This real world exercise is supposed to train both, the participants' ability to work efficiently in a multicultural team and to conduct serious and relevant research on real world challenges.

The curriculum includes courses in the international aspects of each business discipline, in addition to courses on intercultural communication and international business environments in each country. All

instruction is in English. The experience and knowledge that GlobalMBA students gain by living, studying, and learning about four diverse countries and working closely with the international students in the program prepares them for exciting careers in international business.

Upon successful completion of all program requirements each student earns two master's degrees:

- Master of Business Administration from UNF
- European Master of Arts from TH Köln & UW

APPLICATION & CONTACT

The program starts every October at TH Köln and students are selected on a competitive basis. As a rule students have to apply at their home country universities. For admission details and application deadlines please check the websites of the partner universities.

For more information on the GlobalMBA providing by the Faculty of Management, UW you are invited to visit our website:

www.wz.uw.edu.pl/en/wydzial/kierunki/globalmba/zarzadzanie/rekrutacja

The University of Warsaw (UW) provides

NON- DEGREE (SHORT- TERM) STUDIES

international students at Bachelor, Master or Doctoral levels with the opportunity of short-term studies (up to one academic year). Each year over 1,300 international students follow courses agreed on with their home university or of their choice, gain international study and intercultural experience, as well as benefit from being part of the European Higher Education Area.

The participation in the short-term studies is based on the nomination from the student's home university. There are no entry exams as enrolment is based on the submitted application documents. Each application is individually assessed based on the

entrance requirements. Learning Agreement, a document that includes details of the proposed study programme at UW is signed by the student and the representatives of both the home university and the University of Warsaw. An official Transcript of Records as well as a Certificate of Stay is issued at the end of study period at the University of Warsaw. Based on these documents the study period can be recognized by the student's home university.

SHORT-TERM STUDIES COURSE OFFER

Polish is the language of instruction, but there is a wide selection of courses offered in English as well as in some other languages. Every year over 1,300 single courses in a wide range of study areas are taught in foreign languages. Students can choose courses in the fields of sciences, humanities, languages, social studies, economics and business.

The full list of courses available at the University of Warsaw is to be found in the on-line catalogue at www.informatorects.uw.edu.pl and in the directory of the university's study support system [usosweb at usosweb.uw.edu.pl](http://usosweb.uw.edu.pl).

In addition to regular subjects connected with the area of studies international students can benefit from supplementary offer and take foreign language courses, Polish language courses, lectures on Polish culture and history, sports classes and general study

courses.

BASIC ENTRANCE REQUIREMENTS

Candidates should:

- be enrolled at a higher education institution outside of Poland;
- have a good knowledge of English and/or Polish (other foreign language in specific cases) corresponding to a minimum B2 level as defined by the Common European Framework of Reference for Languages (http://www.coe.int/t/dg4/linguistic/Cadre1_en.asp);
- choose an area of studies at the University of Warsaw that corresponds with the study programme at home.

APPLICATION PROCEDURE FOR SHORT-TERM STUDIES STEP-BY-STEP

1. The home university nominates students by sending to the International Relations Office (IRO) students' personal details, study area and level of studies.
2. After the receipt of their nomination candidates are assigned a contact person from the International Relations Office. This person assists candidates in the application process.
3. Candidates are required to submit the on-line application at www.mobility.uw.edu.pl
4. Candidates are requested to provide the required documents: printed, signed and duly stamped UW application form, recent Transcript of Records from their home university and a language certificate proving the required level of English or other foreign language.
5. After submitting the online application the

original application form should be sent to the following postal address:

University of Warsaw
International Relations Office (IRO)
Krakowskie Przedmieście 26/28,
00-927 Warsaw, Poland

- As soon as the University of Warsaw accepts the candidate a formal Acceptance Letter is sent.
- Prior to his/her arrival the candidate needs to provide the IRO with the Learning Agreement.

APPLICATION DEADLINE

For the first (winter) semester or full academic year – May, 15th.

For the second (summer) semester – November, 15th.

FINANCIAL TERMS

Short-term studies are free of charge for international students who are:

- exchange students as nominated within bilateral agreements concluded between the University of Warsaw and their home higher education institution,
- scholars of the Polish or foreign government,
- Erasmus+ or other international mobility programme scholarship holders.

VISITING STUDENTS

An international student may undertake short-term studies on a fee-paying basis. Tuition fee is based on a number of ECTS credits agreed on in the student's Learning Agreement. The price of 1 ECTS depends on the area of studies and varies from 45 euro up to 70 euro. Price list is available at <http://bwz.uw.edu.pl/en/incoming-students/guestexchangeerasmus-students>.

STUDENT SERVICES

Following student services are offered to international short-term students:

1. Before the mobility

- Guidance with the application procedure
- Assistance with visa procedure
- Establishment of a Learning Agreement
- Assistance with finding accommodation

2. During the mobility

- ESN Mentor programme (a local buddy programme)
- Orientation meeting, campus tour and library training
- Language courses
- University of Warsaw Electronic Student Card entitling i.a. to student discounts

- Social events, cultural trips, city tours, games, parties organized by student organizations
- Administrative contact person at the IRO
- Academic mobility coordinator at the faculty level

3. After the mobility

- Official documents confirming the study period and results gained
- Evaluation survey
- Alumni association

ERASMUS STUDENT NETWORK

UNIVERSITY OF WARSAW (ESN UW)

ESN is a student organization that supports student mobility. It works to improve the social and practical integration of short-term students. It offers the Mentor and Tandem programmes, organizes trips, parties, and events for international and local students. For more information go to www.uw.esn.pl All international short-term students are strongly encouraged to take part in the Mentor programme.

For more information contact:

International Relations Office

Krakowskie Przedmieście 26/28, 00-927 Warsaw
Kazimierzowski Palace,
phone: +48 22 55 24 070
e-mail: iro@uw.edu.pl

STUDENT LIFE

Visa and residence permit

EU/EEA citizens

Students from the EU/EEA member countries do not need a visa to come to Poland and may stay in the territory of Poland without legalisation for the period of 3 months. Students staying in Poland for more than 3 months need to submit an application for registration of residence in the voivodship where they are living.

See: www.mazowieckie.pl/en/foreigners-1/european-union

Non-EU/EEA citizens

All citizens of non-EU/EEA member countries who wish to study in Poland are required to obtain a Polish visa prior to their arrival in Warsaw. They should contact the Polish Consulate or Embassy in their country of residence.

See: www.msz.gov.pl/en/travel_to_poland/visa/

In order to extend your stay in Poland it is necessary to apply for a residence permit in the voivodship where you are living before your visa expiry date. First residence permit is issued for 15 months.

See: www.mazowieckie.pl/en/foreigners-1/residence

Insurance

Health insurance is mandatory for all students for the whole duration of their stay in Poland.

- **EU/EEA students** are eligible for free health services in Poland provided they present European Health Insurance Card (EHIC) and Electronic Student Card.
- **Non-EU/EEA students** are advised to buy medical insurance in their countries of origin or in Poland. Otherwise they will have to pay for any medical service. It is also advisable to purchase accident insurance in their home countries.

EU citizens without health insurance in their countries of residence and non-EU citizens can sign a health insurance agreement with the Polish National Health Fund or with one of private medical centres.

See: www.nfz.gov.pl

Studying in Warsaw

Warsaw is a dynamic, vibrant capital city of Poland located at the heart of Europe. It is a town of contrast where the past times constantly mixes with modern times. Despite its difficult history (almost 84% of Warsaw's building were destroyed during the World War II), it is nowadays boosting city, full of theatres, galleries, cinemas and other kind of entertainments. Warsaw is a very green city, with many parks, gardens and forests. Almost 25% of the whole city is consisted of green area where you can jog or ride a bike.

See: www.um.warszawa.pl/en

The city, full of international students, has got a great atmosphere to study. Here, the University of Warsaw is housed in over 100 buildings within three campuses in different parts of the city (the main Campus, Ochota Campus and Służew Campus). All campuses are easily accessible by public transport. The main campus is in the city center, short distance from impressive Warsaw Old Town. According to the QS Best Student Cities 2016 Warsaw has been on the 2nd place in a list of the world's most affordable cities for international students.

See: www.uw.edu.pl

Electronic Student Card

Every student and PhD student is issued the Electronic Student Card. In order to receive it, student is obliged to provide an electronic version of his/her photo in their registration account in the Candidates' Internet Registration System.

University of Warsaw Library

The UW Library is housed in one of the most modern library buildings in Europe, short distance from the Central University Campus. It has the public resource status and currently holds over three million items. On the roof of the library there is an impressive botanical garden. All incoming students have access to the University of Warsaw Library using the Electronic Student Card.

See: www.buw.edu.pl

Internet Access

Wireless Internet access is available in most of the University buildings and in the University Library. There are also many hot spots in Warsaw, some of them free of charge.

See: hotspots.com.pl/hotspot/miasto/Warszawa

Sport Facilities

If you are keen of sport, the University of Warsaw offer a wide range of sport courses. Most of them take place in the Sports Centre (Ochota Campus). Note: some sports courses are subjected to fee. The full list of sport courses and the online registration is available at: www.rejestracja.usos.uw.edu.pl

Selected students organisations

Students' Union

Students' Union protects the students' rights and represents the student body in the university's authorities. The Students' Union runs a number of commissions, initiatives, and programmes students ranging from social matters through student mobility to entrepreneurship, legal advice and cultural life. It includes practical matters like accommodation and work and placement possibilities.

See: samorzad.uw.edu.pl/en/

Erasmus Student Network UW

The Erasmus Student Network University of Warsaw section (ESN UW) is a member of the pan-European, non-profit student organisation, which supports the development of exchange programmes and mobility. The goal of ESN UW is to help all international students in everyday matters and to make their stay at UW as fruitful and pleasant as possible. The ESN UW activities are supported by the International Relations Office.

See: www.uw.esn.pl

Accommodation

Dormitories

University of Warsaw has got six dormitories with easy connections to its campuses and city centre. The number of places in the university dormitories is limited and therefore accommodation is assigned on a 'first come first served' basis. A place in a dormitory is assigned for one year of studies at UW.

Costs of living in dormitory:

- double room: from 360 to 480 PLN per month
- single room: from 450 to 600 PLN per month (plus extra costs)

Office for Students Affairs Welfare Section at enbss.uw.edu.pl

Private flat

In case you do not get a place in any dormitory, you should find private accommodation on your own.

Rent costs:

- single room: from 800 PLN per month
- studio: from 1,500 PLN per month

Facilities for people with disabilities

University of Warsaw is a friendly place for people with disabilities. Entrance exams are carried out in such a way that people with disabilities are ensured qualification procedures adequate to their specific needs. Information handbooks with enlarged print are available to the candidates with visual impairment. Braille versions of examination tests are prepared for sightless students and transportation is provided for those who use wheelchairs.

Two student dormitories have been adapted for the needs of students with motion disabilities. Special computer desks have been installed in the University Library.

More and more, university buildings are gradually being adapted for the needs of persons with disabilities.

Now, almost all buildings are fully or partially accessible. A team of assistants is available to help students who choose to study in the departments not accessible yet.
